

The image shows a water rating label. At the top is a blue water drop shape containing the number '1'. Below this, the text '절수등급' (Water Saving Grade) and 'WATER RATING' are displayed. A circular gauge below the text is divided into three segments: a large blue segment on the left labeled '1', a smaller light blue segment in the middle labeled '2', and a very small light blue segment on the right labeled '3'. The '1' segment is highlighted, indicating the product's rating. Below the gauge, the text reads: 「수도법」에 따른 절수등급 표시 (Water saving grade marking according to the Water Supply Act). Underneath, it states '사용수량 4 리터(L)이하 / 세척' (Usage amount 4 liters (L) or less / cleaning). At the bottom, there are two columns of small text: '제품구분: 대변기' (Product category: Toilet) and '업체명: 계림(주)' (Company name: Gyerim Co., Ltd.), and '모델명: C-7951 (G7951KL)' (Model name: C-7951 (G7951KL)) and '검사기관: KCL' (Inspection agency: KCL).
